*President –Handball Federation of Portugal*

Madrid, 06<sup>th</sup> August 2015

Dear President,

Dear Friend,

This is only a quick note to thank your Women's Junior National Team's participation on the w19 EURO in my hometown, Valencia.

The magnificent performance of your players, along with their fair play attitude and the fact that the delegation from your Federation had always a good disposal to cooperate on any request we made, allowed us to offer the best we had. I hope they only have good memories of their time there and wish that they count Valencia amongst their home destinations from now on.

Due to the exciting matches, the live streaming of all clashes, and the parallel activities, we believe that we have done so much more than we actually think to guarantee the future of female handball in Spain, and it's mainly the participating Federations we have to thank for that. Therefore, please send my gratitude to your delegation in such special Event for us.

With my best sporting regards,

**Mr. Francisco V. Blázquez García**

**President – Royal Spanish Handball Federation**
